SUMMARY

As a fresher at Sri Sri University pursuing B.Tech in Cyber Security, I come with a strong desire to learn and grow. I've actively sought out opportunities to gain practical experience through job simulations and additional courses. This proactive approach reflects my commitment to mastering the tools and concepts essential to success in cybersecurity. With a curious mind and a readiness to tackle challenges head-on, I'm excited to embark on this journey of exploration and skill development.

KEY COMPETENCIES

| | | |
|---------------------------------|---|--------------------------------------|
| Python Problem-Solving Analysis | Computer Literacy Recruitment and Talent Acquisition Candidate Sourcing and Screening | Strong Communication Active Listener |
